

Tiny Tips

[1]

The majority of psychiatrists, psychologists and other mental health professionals “go along to get along” and maintain a status quo that includes drug company corruption, pseudoscientific research and a “standard of care” that is routinely damaging and occasionally kills young children:

She holds in even greater contempt the Islamist parties that have emerged in the first rounds of Egypt’s elections as the revolution’s biggest winners. Though a devout Muslim who covers her hair, she thinks politics and religion shouldn’t mix. The Islamists, she says, “have hijacked the revolution.” “I hate them,” she says. “The real owners of the revolution are the workers.”
